“Bloomerang Membership Management will simplify and enhance our process. The design is thoughtful and will help us integrate custom membership forms seamlessly and manage our member transactions more efficiently. I really like it; it’s built in a way that a lot of membership organizations that also accept donations are going to be really excited about.

Elizabeth Warfield, Technology Administrator of CGSUSA

## Online membership forms

Create customizable, user-friendly forms that can be embedded on any page of your website. New members can join effortlessly, choose their preferred membership level, and opt in to automatic annual renewals.

## Dynamic Groups

Members are automatically sorted into Groups according to their membership level, enabling you to efficiently personalize interactions and communications to develop relationships with a large number of members at once.

## Comprehensive constituent profile

Bring together member, donor, and volunteer data in one profile. This holistic view of your supporters enables you to engage them in a more personalized and effective way.
