Volunteer Profile Integration

Tap into the giving potential of engaged volunteers

What if your volunteers became donors, and your donors became volunteers?

Bloomerang's volunteer profile integration seamlessly syncs data between the Bloomerang donor and volunteer, to reveal engaged donors and volunteers. With strategic cross-cultivation, you can transform these individuals into super supporters - people who generously give both time *and* money to a cause.

Increase Donation Revenue
When you convert volunteers to donors, you'll find and engage new donors who are likely to be retained. Donor retention is key to creating the predictable revenue streams your organization needs to thrive.

Grow Your Volunteer Team
Tap into the diverse talents of generous donors and give them tangible ways to connect with your cause. More volunteers means you can get more done within your organization, and your community can reliably receive the services and support they need.

Save Time with One Entry
Bloomerang's two-way sync eliminates redundant data entry, keeping records up to date, whether the update was made in the Bloomerang donor or volunteer solutions.

Sync Your Data on Your Terms
Use manual sync anytime you need instant updates for the freshest data, or automatic sync so you can set it and forget it.

Learn More

See how adding our new volunteer management solution can help you thrive.
Contact **customer.accounts@bloomerang.com** to learn more.

With a complete view of engaged donors and volunteers, you can cultivate them into Super Supporters.
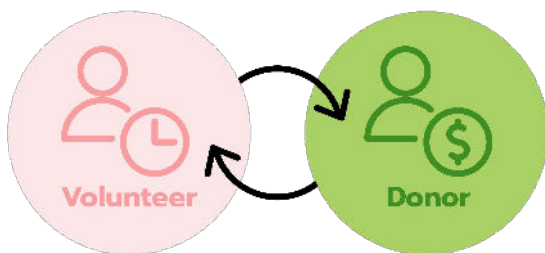

Volunteer management syncs with Bloomerang donor Volunteer Group.
When records are updated with volunteer activity, the information appears in the constituent record and timeline.

**Tap Into Volunteer Giving Potential**
Volunteer activity syncs to Bloomerang donor and updates the Engagement Meter, showing you which volunteers to focus on cultivating.
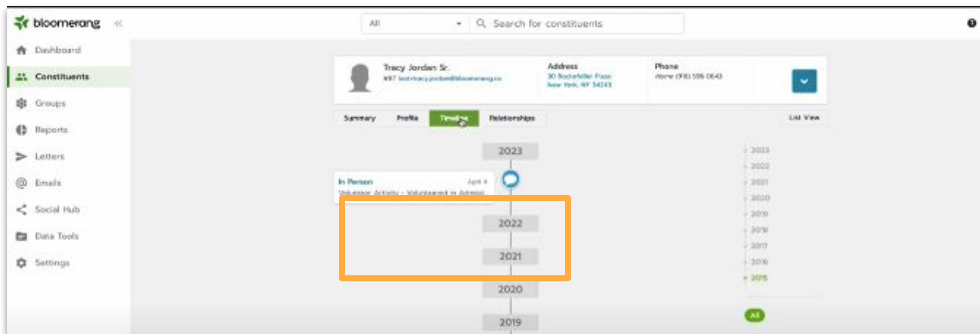

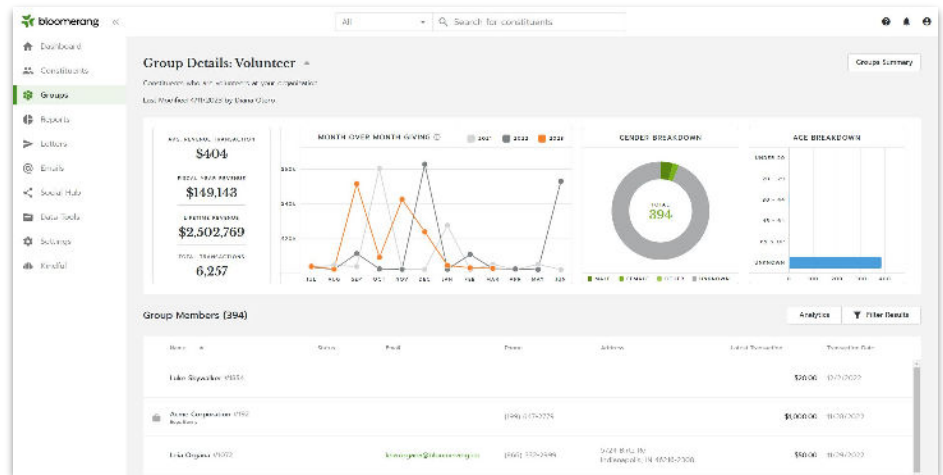

Two-way Sync of Profile Data
Profile data will update in both the Bloomerang donor management and volunteer management solutions.

With a complete view of engaged donors and volunteers, you can cultivate them into Super Supporters.

Two-way sync updates profile data in both the Bloomerang donor management and volunteer management.

Create a Volunteer Group in Bloomerang donor. Sync and the new records will appear in volunteer.

When records are updated with volunteer activity, the information updates the constituent record and timeline.
